## CARACARA

*Malbec*

The Caracara is a member of the falcon family that can be found in abundance from the southern USA to Tierra del Fuego in Argentina. Highly opportunistic feeders, caracaras generally prefer carrion to live prey and will frequently filch meals from other birds.

Stunning purple color. Its bouquet is intense, rich in blackcurrant, vanilla and spices. On the palate the soft and succulent ripe fruits follow through with a surprising delicacy. Tannins are silky, coming subtly from the forefront and giving a lingering finish.

This is a wine to enjoy with meat dishes and pasta with meat and tomato sauces.  
Serve at 15°-17°C.
