PINOT GRIGIO - 20XX

Each year, Jed's three Australian winemakers travel to Mendoza, Argentina to produce wines that express the unique characteristics of the region.

Jed Pinot Grigio is grown in the foothills of the Andes Mountains, in the South of Mendoza's Uco valley. The southern locality and higher altitude result in a cooler climate than most parts of Mendoza. Year in, year out, grapes are sourced from the same vineyard here which has a climate cool enough to produce crisp, acid driven whites. The finished wine shows crisp, mineral acidity, fruit from citrus to green melon and layers from bees wax to meringue. It's super-light and fresh, a real lunch-time wine.
