MALBEC - 20XX

Each year, Jed's three Australian winemakers travel to Mendoza, Argentina to produce wines that express the unique characteristics of the region.

Jed Malbec is grown in the foothills of the Andes Mountains, in the South of Mendoza's Uco valley. The southern locality and higher altitude result in a cooler climate than most parts of Mendoza. Year in, year out, grapes are sourced from the same vineyard here which yields a bright and tight Malbec style. Violets aromatics and spice are the hallmark of the region with crunchy cherry fruit and a savoury edge.
