1865

EACH WINE FROM THE BEST TERROIR

Our philosophy is based on creating each wine from the best terroir. Every 1865 wine is made from an emblematic variety grown in selected vineyards, managed in accordance with their particular soil and climatic features to produce wines That have unique personalities while maintaining quality and consistency throughout the years.

In the year 1997, Viña San Pedro created the brand 1865, which honors the year of the winery's foundation, celebrating now more than 150 years of history.

The main characteristic of these wines is the emblematic varieties from different and distinctive wine regions of Chile. Each wine is obtained from carefully selected vineyards, which are planted in the best possible valley for each variety. Cabernet Sauvignon from the Maipo, Carménere and Malbec from specific quarters of the Maule, a Syrah from Cachapoal Andes. And, since 2007, the first white variety of the range, a Sauvignon Blanc from Leyda Valley. Then shortly after in 2014 two new additions which were launched. Pinot Noir and Chardonnay

Needless to say, these wines unify elegance, enological best practices while considering global trends to become a worldwide brand.
