Varietal
Carmenère

CENTRAL VALLEY

This grape was once heavily planted in Bordeaux and is one of the six varieties allowed in red wines from that region. Carmenère is now almost impossible to find in Bordeaux after the Phylloxera blight in 1867. Today, it is most used in Chile where it was imported in 1850. A young wine, with red fruit aromas and herbal notes. This is a wine with medium persistence and a smooth ripe fruit flavor, ideal for enjoyment on any occasion.

"PROHÍBESE EL EXPENDIO DE BEBIDAS EMBRIAGANTES A MENORES DE EDAD".
