Alpaca

The Alpaca is a domesticated animal of the Camelidae family and a native of the Andes. This creature is highly valued for its luxurious wool, which today is exported around the world.

The wine has a bright red colour similar to black cherry. It has an intense perfume with aromas of ripe plum, black fruits such as black berry and blueberry, exquisite black chocolate, coffee and caramel. A full and juicy attack with a pleasant acidity; Ripe tannins, round and very soft. The aftertaste carries spicy notes superbly blended with hints of smoke and caramel, followed by a nice and pleasant finish. Serving suggestions include cooked crawfish, abalone, white meat like turkey and chicken; Also with sausages, soft cheese (mozzarella or brie), empanadas\* and pasta with soft sauces.
