

Eine gute Druckqualität kann nur erreicht werden, wenn die Vorgaben und Hinweise aus dem Druckleitfaden S/G eingehalten werden. Bitte stellen Sie sicher, dass der Druckleitfaden in Ihrem Hause und bei Ihren Agenturen bekannt ist und die Basis für die Designgestaltung darstellt. Folgende, kommentierte Punkte stellen eine Abweichung vom Leitfaden dar bzw. bilden ein Risiko für ein stabiles, reproduzierbares Druckergebnis. Sofern keine Änderung möglich oder gewünscht ist, können wir keine Reklamationen aus daraus folgenden Qualitätsbeeinträchtigungen akzeptieren.

*A good print quality can only be achieved if the requirements and instructions of the SIG artwork guideline are observed. Please make sure that the SIG artwork guideline is well-known for you and your agency. The SIG artwork guideline should be the basis for the design layout.*

*The following comments describe a deviation from the guideline. They could be a risk for stable and repeatable print results. If a required adaptation will be considered impossible or finally not desired by the customer, SIG Combiclock cannot be held responsible for printing problems and will consequently not accept any complaints accordingly.*
